EMERGENCY CONTRACTING PROCEDURES FOR THE REPAIR OF DAMAGED ROADS AND FLOOD CONTROL FACILITIES JANUARY 2005 RAINSTORMS

On January 25, 2005, the Board adopted a Resolution authorizing the Director of Public Works to negotiate and execute emergency construction contracts, amend existing service contracts, and enter into new short-term contracts to repair damage caused by the January 2005 rainstorms. Since that time, the Board has reviewed the necessity of these emergency contracting procedures every 14 days.

We have determined that emergency contracting procedures are no longer necessary. The remaining permanent restoration projects will be constructed following normal contracting procedures. Based on recent discussions with County Counsel, it will not be necessary for the Board to continue to review this item.
